Consumables Mailer June - August 2011

EverEdge® Technology is unlike anything you've experienced before.

Superior stainless steel alloy scalers & curettes
that **stay sharper longer**

Less frequent sharpening, less hand fatigue, &
greater comfort throughout the day.

- **Standard Gracey Curettes** are area specific to allow for deep scaling, root planing & periodontal debridement
- Offset blade provides a perfect working angulation for the tooth surface which means only the lower cutting edge of each blade is used.

Gracey Curette #1/2
Gracey Curette #3/4
Gracey Curette #5/6
Gracey Curette #7/8
Gracey Curette #9/10
Gracey Curette #11/12
Gracey Curette #13/14
Gracey Curette #15/16
Gracey Curette #17/18

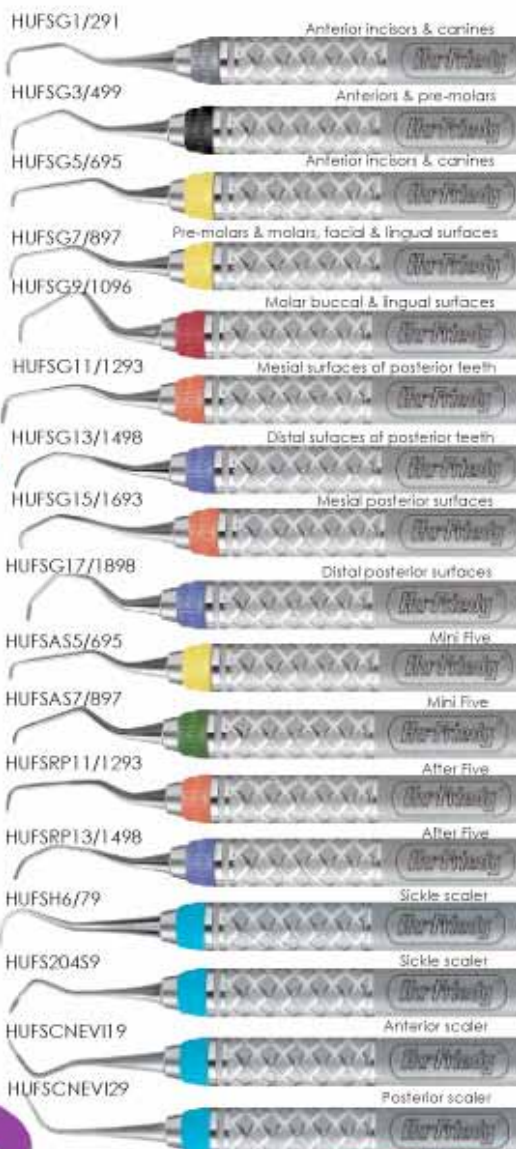

New

- **Mini Five Curettes** are designed to reach into deep periodontal pockets & root surfaces of 5mm or more & the **After Five Curette** also allows for better clearance around the crown
- The blade is reduced for better adaptation in narrow pockets & furcations
- The blade is 10% thinner than the standard Gracey to ease gingival insertions & reduce tissue distention

Gracey Curette Mini Five #5/6 #9
Gracey Curette Mini Five #7/8 #9
Gracey Curette After Five #11/12 #9
Gracey Curette After Five #13/14 #9

- **Sickle Scalers** are designed for the removal of supragingival calculus

Sickle Scaler #6/7
Sickle Scaler Fine #2045
Nev® 1 Anterior Scaler
Nev® 2 Posterior Scaler

SYNERGY®D6

for the easy and aesthetic application

coltène 
whaledent

New

The simple assortment of SYNERGY D6 offers only 7 dentin shades & 2 enamel shades. Thanks to the excellent optical self-blending properties of the Duo Shade System, a wide spectrum of tooth shades can be easily managed. Every Duo Shade component contains 2 Vita™ shades (e.g. A1/B1 or A2/B2). 2 translucent enamel shades are ideal & indicated as an enamel replacement using the double-layering technique, or for optimising the natural aesthetics.

- Easy handling
- Non sticky
- Sculptable material
- High resistance to the operatory light
- Low shrinkage
- Fast and excellent polishability
- New available darker shade A4/C4

Compothixo – Improved Quality Restorations

A unique generation composite placement & modelling instrument suitable for all classes of restorations. New technology enhances the thixotropic properties of composites by only changing its viscosity, without altering the chemical & mechanical characteristics of the material.

Smart Vibrations:

- Better wettability
- Superior adaptation of composite to cavity walls
- Reduction of air bubbles
- Precise application
- Layer thickness control
- Improved sculptability
- Reduced stickiness

I Handpiece PLUS:

- I Pointed Tip
- I Spatula Tip
- I Plunger Tip
- I Semi-Sphere Tip

Indications:

- Modelling of composite
- Occlusal modelling, fissures and removal of excess
- Layer application technique
- Bulk technique in small cavities
- Direct veneering
