

## Care-Protect

Daily care beyond the warranty

CS Services

Peace of mind is important when you depend on your dental equipment to diagnose and treat your patients. That is why all Carestream Dental products include a 24-month warranty when registered online.

With the purchase of Care-Protect, the warranty coverage of a Carestream Dental Product can be extended up to a total of five years. With five years of warranty protection, you can feel confident your practice will run smoothly with Carestream Dental products.

FULLY ENJOY THE BENEFITS OF YOUR PRODUCT WITH CARE-PROTECT COVERAGE.

## Get the full protection for your Carestream Product

Care-Protect is a physical product that is delivered to you via our dealer network within a Carestream Dental folder. The printed Care-Protect certificate contains the catalogue number and unique serial number for your product.

## How do I get Care-Protect for my product?

You can order Care-Protect like any other Carestream Dental product, it is very easy.

Care-Protect needs to be purchased in the 12-month period after your purchase and the warranty coverage starts from the product's original installation date.

Finally, the extended warranty is recorded in the Carestream Dental database itself: the warranty will start from the product's original installation date, and will cover your product through all warranty years.
